General description

The FLIR T440bx is a camera that offers good performance at an affordable price. Excellent ergonomics, a walk-up-and-use interface, and easy communication make the FLIR T440bx a truly user-friendly camera for the beginner or advanced user.

Benefits:

- Excellent ergonomics: The FLIR T440bx has a tiltable infrared unit and auto-orientation, which
 make it easy to capture images from any angle comfortably. The small size and low weight of the
 camera facilitate its use over a full working day.
- Affordable performance: The FLIR T440bx is equipped with the innovative Multi Spectral Dynamic Imaging (MSX) feature, which produces an image richer in detail than ever before. You can highlight objects of interest, on both the infrared and the visual image, by sketching or adding predefined stamps directly onto the camera's touch screen.
- Extensive communication options: The Wi-Fi connectivity of the FLIR T440bx allows you to connect
 to smart phones or tablets, for the wireless transfer of images or the remote control of the camera.
 The Bluetooth-based METERLiNK function transfers readings from external measurement
 instruments to the infrared image.
- Support for UltraMax: When enabling UltraMax in the camera, the resolution of images can be substantially enhanced when importing the images into FLIR Tools.
